

Quality Policy

At Homeyer Precision Manufacturing we will exceed our customers' expectations, their requirements and provide solutions for their precision machined components, tooling and sub-assemblies to the high tech manufacturing industries of the world.

With our highly skilled associates, innovative solutions, fair price and extraordinary customer services culture we are committed to and will comply with all the requirements, continually improve the effectiveness and the communication of the Quality Management Systems.

By continuously monitoring these systems and reviewing our quality objectives regularly and then communicating within our organization our team will ensure our purpose and goal as a leader in the precision machining industry.

Herb Homeyer, Company President
